The official guidance from CAP NHQ is this:

At the time of the SUI if the unit commander is not able to enroll in the Command Specialty Track because he/she has not completed Level II then a Higher Headquarters Discrepancy (HHQ) is noted in the SUI Report to record that fact. This Discrepancy does not get entered into the Discrepancy Tracking System and the unit does not have to respond to it. It is assessed so that NHQ will see the issue when they review the report.

Please let me know if you have any further questions.

Regards,

Lt Colonel James R. Fallon, CAP
Massachusetts Wing
Inspector General
